

Mini Crawlers

Used Mini Crawler Glendale - Our different programs for Mobile Crane Operation are designed for experienced operators who need certification or re-certification, and for inexperienced people who are searching for their first job as an operator of a crane. Business demand for crane operators who are certified is high throughout the country. Crane operator positions are in demand because of their high pay. Crane operators are among the highest paid of any operator of heavy equipment. Our Crane Operator training offers instruction for a variety of mobile cranes. Course subject includes Wire Rope, Crane Set-up, Lift Planning, Load Dynamics, Rigging, Signaling and Load Charts. The program is best for crane operators, riggers and their supervisors. The materials included in the course will consist of a manual and several useful handouts. The safety manual that is illustrated features 100 to 250 pages, depending on the course, of useful and important material. Course materials comprise load exercises and load charts for the crane with which the person training is working. Over half of the course consists of Hands-On Safety Training. Practical training is effective for developing and increasing personnel skills levels. Just certified journeyman crane instructors are selected to teach the courses. Our instructors have many years of practice in the business. For all the course we provide, we can include optional testing mechanisms to customize your training. A skills test is normally administered for programs that comprise H.O.S.T. Trainees will be graded and tested. We offer certified training programs for the following cranes: Fixed and Swing Cab Mobile Hydraulic Cranes; Lattice Boom/Crawler Cranes; Articulated Boom/ Knuckleboom Cranes; Rigging / Signaller Certification and Training; In-The Seat Training and Testing & Certification. Business standards of practice are evolving as new trade requirements emerge. There are continual updates to regulations and legislation. Enhancements in technology and equipment continue to be made. Industry data analysis and collection identify trends which are changing. Members maintain the advantage of managing their training programs and certifications. Mobile device alerts keep members ahead of personal and workplace safety news.
